RG25HD - Gas Powered, Self-Propelled Handle Bar

The self-propelled RG25HD is RAYCO's premier Mini Work-Force model. It features a reliable Kohler 25hp gas engine with dual element air cleaner and electric start. A powerful hydrostatic transmission and large wheels and tires navigate over obstacles and difficult terrain. And it's made to fit through a 30" gate, so the RG25HD can get to just about any stump. Adjustable handlebars, parking brake, operator presence bail handle, and an electric clutch are standard features on the RG25HD.
